EDUCATION

St. Joseph's College of Engineering

B.Tech in Artificial Intelligence & Data Science | CGPA: 8.59

2024 – 2028

Chennai, Tamil Nadu

EXPERIENCE

Pyroferus Technologies Pvt. Ltd.

May 2026 – Present

Software Engineering Intern (Paid)

Chennai, India

- Engineered RESTful APIs with Spring Boot for customer management and authentication, reducing response times by **25%** and serving **2,000+** concurrent users.
- Architected responsive React UIs with PostgreSQL, optimizing database queries to improve throughput by **30%**.
- Spearheaded the ERP's modular development, coordinating **3** cross-functional teams to deliver features **10%** ahead of schedule.

Encycdata

Dec 2025 & Jun 2026

Software Engineering Intern,

Chennai, India

- Implemented responsive web features and REST APIs, supporting **1,500+** daily active users; authored comprehensive API documentation.
- Led debugging and testing initiatives, reducing production bugs by **30%** through systematic code reviews and unit testing.

Likemind Technologies Pvt. Ltd.

Web Development Intern

- Crafted responsive web pages with modern UI/UX, increasing user engagement by **20%**; presented design prototypes to stakeholders.
- Resolved **40+** UI inconsistencies and communicated fixes across teams to ensure cross-browser compatibility.

PROJECTS

Zoho Books-Inspired ERP — Java, Spring Boot, React, PostgreSQL

- Engineered a full-stack ERP with secure REST APIs, managing **5,000+** customer records; built reusable React component library.

Traffic Management System — React, Spring Boot, SQL

- Developed React dashboards visualizing **10,000+** traffic data points in real time via REST APIs and optimized SQL schemas.

Agricultural Management Platform — React, Flask, TensorFlow, Firebase, MySQL

- Constructed an AI crop disease detection model with **92%** accuracy using TensorFlow; integrated Flask APIs and Firebase Auth.

E-Waste Management Platform — Flask, MySQL, HTML, CSS, JS

- Architected MySQL schema and Flask backend processing **300+** pickup requests monthly; built responsive UI for tracking.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Databases: PostgreSQL, MySQL, Firebase

Core: DSA, OOP, DBMS, OS, Computer Networks

Frontend: HTML5, CSS3, React

Backend: Spring Boot, Flask, RESTful APIs

Tools: Git, GitHub, Postman, VS Code, Linux

ACHIEVEMENTS

- Winner (Team Leader)** – IdeaForge Hackathon 2026 and HackNova 2025
- Runner-Up (Team Leader)** – HackAIThon 2025
- Qualified for the **Flipkart GRiD 8.0** Next Evaluation Round
- Solved **1,500+** coding problems and earned **500+** medals on SkillRack
- Oracle Cloud Infrastructure Foundations Associate certified
- JPMorgan Chase Software Engineering Virtual Experience (Forage)
- NPTEL certifications in DBMS and Python for Data Science
